

HomeLAND™ Corn Complete

Talc USA HomeLAND Corn Complete is a comprehensive solution for enhancing your corn crop. This product combines advanced seedflow and shield technologies with BRANDT enzyme technology in a single package. The seedflow technology improves seed retention and fluency, while the shield technology provides extra protection for the effectiveness of the inoculants. The inclusion of BRANDT enzyme technology enhances plant health and growth by facilitating better water and nutrient uptake. These combined benefits give optimal growing conditions.
